

# *AMETEK* LAMB ELECTRIC

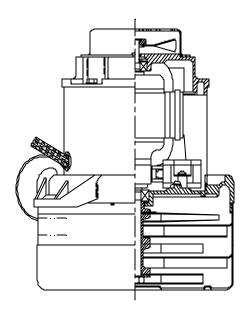

## DESCRIPTION

- Three stage
- 120 volts
- 7.2"/183 mm diameter
- Double ball bearings
- Single speed
- Tangential bypass discharge
- Aluminum fan end bracket
- Aluminum commutator bracket

### DESIGN APPLICATION

- Equipment operating in environments requiring separation of working air from motor ventilating air

- Designed to handle clean, dry, filtered air only

#### Model: 116119-00

### SPECIAL FEATURES

- Suitable for 120 volt AC operation, 50/ 60 Hz
- UL recognized, category PRGY2 (E47185)

- CSA certified, class 1611 01 (LR31393)

- Provision for grounding

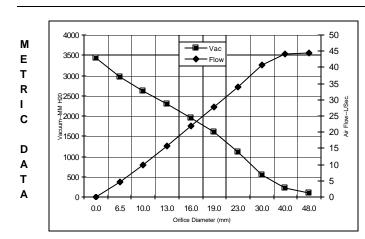

- Aluminum fan end bracket

designed to dampen vibration and improve durability

- The Lamb Electric vacuum motor line offers a wide range of performance levels to meet design needs

# **PRODUCT BULLETIN**

**WARNING -W**hen using AMETEK Lamb Electric bypass motors in machines that come in contact with foam, liquid (including water), or other foreign substances, the machine must be designed and constructed to prevent those substances from reaching the fan system, motor hour and electrical components. Lamb Electric vacuum motors other than hazardous duty models should not be applied in machines that come in con with dry chemicals or other volatile materials. Failure to observe these precautions could cause flashing (depending on volatility) or electrical show which could result in property damage and severe bodily injury, including death in extreme cases. All applications incorporating Lamb Electric m should be submitted to appropriate organizations or agencies for testing specifically related to the safety of your equipment.
