

Pacer PB (Patents Pending)

Cordless PacVac Vacuum

Available at vacshopusa.com

For unrivalled productivity, the Pacer PB battery-powered vacuum has the runtime, features, and performance to supercharge your vacuum process. The mobility and enhanced safety of a cordless design, combined with low noise levels, make this PacVac ideal for spot vacuuming large buildings—offices, healthcare facilities, classrooms, and conference areas.

- Instant trigger and cordless design provide unparalleled productivity — spot vacuum up to 30,000 sq. ft. per hour.
- NiMH battery technology has double the charge density of traditional batteries. As a result, the Pacer PB provides up to 50% more runtime but has lighter batteries than others' lead acid offerings.
- To assure a comfortable fit for all body types, the ergonomic “backpacker” harness adjusts at the shoulders, chest, and waist.
- Very quiet, 65 dbA noise level means the Pacer PB can be used in occupied areas at any time.
- .5 HP, 2-stage, 24V vacuum motor provides plenty of cleaning muscle.
- Durable polypropylene body stands up to heavy-duty commercial use.
- Cordless design reduces the risks of a trip/fall accident, eliminates damage to surroundings, and saves the repair cost of the most frequently damaged part—the cord!

Pacer PB Specifications

Motor -Type -Air Flow -Waterlift	2-stage 24V, .5 HP Maximum 70 CFM (33 l./sec.) 44 in.	Batteries -Runtime (per set) • Constant • Operational	NiMH, 12V, 9.5 AH (each) 30-35 minutes 1-2 hours spot vacuuming	Dimensions -Height -Width -Length -Weight • Machine • Battery Set • Shipping w/1 Batt. Set w/2 Batt. Set	25-in. (63.5 cm) 12-in. (30.5 cm) 12-in. (30.5 cm) 14 lbs. (6.3 kg) 8 lbs. (3.6 kg) 42 lbs. (19 kg) 50 lbs. (22.6 kg)
Filtration System -Filter Area	Provides 5 micron capture at 99.7% efficiency. Consists of pre-filter, pleated cone filter, and final foam filter (HEPA available-Part # 6991131). 4 sq. ft.	Construction -Body -Harness	Rotocast Polyethylene Adjusts at shoulders, chest, and waist.	Warranty	3 years limited
Switch	Instant on-off trigger on wand handle	Debris Canister	1.6 gal. (7 liters)	Productivity — The Pacer PB can cover up to 30,000 sq. ft. per hour when spot vacuuming for a total of up to 60,000 sq. ft. from each set of batteries.	

Cordless operation accelerates spot vacuuming in office areas.

In addition to the enhanced safety benefits of a cordless design, the Pacer PB's quiet operation makes it ideal for healthcare facilities.

The charger automatically recharges two sets of batteries. It restores 60% capacity in 60 minutes, 90% in 90 minutes, and fully recharges a set in two hours. The tray simplifies staging in large facilities.

1 Outlet at the top directs exhaust away from the operator and keeps desk papers where they belong.

2 Intake at the bottom means power is used to collect debris, not lift it.

3 Comes with adjustable telescoping wand (ideal for stairs), hard floor/carpet tool, round brush, and crevice tool.

4 Backpacker-type harness assures a comfortable fit for all body shapes and sizes.

5 Instant trigger on the handle extends battery runtime for maximum productivity and floor coverage.

The Pacer PB can also be mounted on a large barrel. Requires 2 Barrel Hangers (#6990781), 10-ft. hose (#6990801), and Accessory Skirt (#6990791).
